Yes. There are a ton of good smartphones that cost less than the Galaxy S8 and S8 Plus, such as the HTC U11, Google Pixel and LG G6, or even the iPhone 7 if you're not looking for an Android device. We also recommend a number of cheaper smartphones. However, no one compares to the Galaxy S8 display. How long will it last? This should last a little longer than two years. Samsung, and most Android manufacturers, stop supporting the devices after two years. Expect the S8 to receive the same treatment. You should know that Samsung also delivers software updates much later than when Google rolls them out, so expect the next annual version of Android (Android O) soon after its release this fall. Should you buy it? Yes. If you have \$750 or more to spare, the Galaxy S8 and Galaxy S8 Plus are some of the best smartphone smartphones you can buy it now. It's an incredible amount of money though, and you should note the copious amount of more options available. However, if you are looking at the S8, you are probably looking for a cream crop. Well, you found him. Update: Added our thoughts on Bixby Voice. Editors' recommendations samsung galaxy s8 active at&t firmware
